## Why a Mastermind Group?

Every great champion, at some point during their journey, realizes they cannot reach the pinnacle of success alone. In business, it's undeniable. No one has all the answers. Trying to be that person leads to exhaustion, burn-out, and flagging performance. Peer-to-peer groups surround you with people who share a common vision of mastering their craft. Progress is faster and results are better.

*"The coordination of knowledge and effort of two or more people, who work toward a definite purpose, in the spirit of harmony."*

*He further elaborated...*

*"No two minds ever come together without thereby creating a third, invisible intangible force, which may be likened to a third mind."*
